reason for this shift is, they get volume on Fiverr (large number of orders) & so the chance to make big money on Fiverr.

So how people make money on Fiverr?

One of the biggest secret of making money on Fiverr is you must possess some good skill or acquire one that you can sell on Fiverr & your service must be much cheaper than the real market price. Just check here one of the Indian seller on Fiverr to understand this how he is earning money on Fiverr.

The listing of this seller on Fiverr says "I will get you 1000 likes in just 48 hrs time" & just check his current orders in queue. Its mind blowing 22 orders and 100% rating to all his completed orders in the past.

Now the USP of this Fiverr Gig (Fiverr called every listing as Gig) is this seller can give 1000 likes from 1000 different Facebook people to any Facebook page in 24 hrs time. This is much cheaper and faster than the market price. Now check this Gig of another seller on Fiverr.

possible for such services to survive in the market and its hard to make good money from Fiverr.

They said – You may find some failures who could join you and run your \$5 concept for sometime but Fiverr will have to struggle a lot for finding good professionals to work for \$5.

But within 2 years Fiverr has changed the definition of online services and become one of the biggest outsourcing platform where everyone can get their services done in just \$5. With in 2 years Fiverr has managed to list more than 1 millions '5 dollar gigs' in its marketplace.

So how much money you can make from Fiverr?

It was a great question for the experts that how much money they can make if they join Fiverr. How many \$5 gigs they can complete in 1 day. And how people, who are already selling the same service for \$20 to \$50 can expect bigger money through Fiverr.

But when people started to work on Fiverr, its has changed their misconception. Hundreds and even thousands of the sellers got so much response on Fiverr that they had to leave everything and get focused on Fiverr only.

Just check yourself the proof.

One of the seller 'blue89red' on Fiverr who designs professional logo in one of his gig has received more than 3000 order on this single gig. Just check in the image that he already has 66 orders in queue. Every order for \$5.

It means this number is an indication for an average numbers of orders per day. And yes this is from a single gig. Everyone can create up to 20 gigs. so just find out how much he is making. Access this seller [here](#).
