Signs of deceit

- The mouth cover
  - Hand covers the mouth as the brain subconsciously instructs it to try to suppress the deceitful words that are being said

*The Definitive Book on Body Language.* Allan & Barbara Pease
The Process
Step three: Interpret in context

Questions you may want to think about

- What are some environmental factors that might explain the person’s non-verbal behavior?
- Is this person acting strange because they are scared or intimidated?
- Does this person normally act this way?

What do your instincts tell you?
