Fat: fascia that surrounds pectoral major:
- Pectoral fascia
- Subclavius & pec. minor: clavipectoral fascia

Arteries:
- Branches of axillary artery:
  - Superior thoracic, thoracoacromial, lateral thoracic, subscapular, ant. & post. circumflex humeral.
  - Subclavian artery
  - Axillary artery
  - Brachial artery
  - Ulnar artery
  - Radial artery

Veins:
- Median cubital vein
- Basilic vein
- Cephalic vein
- Dorsal venous network

Lymph nodes:
- Suprascapular nerve: C5
- Long thoracic nerve: C5-C7
- Suprascapular n

What nerves arise from superior trunk?
- Suprascapular n
- N to subclavius

What nerves arise from lateral cord?
- Musculocutaneous lat. pectoral n: part of media
- Medial pectoral n
- Med. cutaneous n of arm & forearm

Brachial plexus mnemonic:
- Rudely
- Truly drinks cold beers
- Ly k motor to muscles of upper limbs except trapezius
- Sensory to skin of U.L. except tip of shoulder & upper part of
