Chapter 8
Development across the life span

HW:

Three Fundamental Questions Regarding Development:

1. Nature / Nurture

   Ex: Higher IQ: Nature/Nurture/Both
       Hight: Nature/ Nurture/ Both

2. Continuity / Stages:

3. Stability / Change:

   Personality
   Change
   Until: 25
   Stable
   25-55
   Change
   55+

Research Methods:

- Longitude:

1 group, same age, followed for a long time

Ex: Four kids, all the same age, 5, are followed for 20 years for an experiment. The experiment contains learning about each child’s learning environment.
