Question 89 of 100

BS - Business Administration Exam Comprehensive Exam

Business Finance - Balance Sheets and Financial Statements

Which one of the following statements is CORRECT?

A  ○ The focal point of the income statement is the cash account, because that account cannot be manipulated by “accounting tricks.”

B  ○ The reported income of two otherwise identical firms cannot be manipulated by different accounting procedures provided the firms follow generally accepted accounting principles (GAAP).

C  ○ The reported income of two otherwise identical firms must be identical if the firms are publicly owned, provided they follow procedures that are permitted by the Securities and Exchange Commission (SEC).

D  ○ If a firm follows generally accepted accounting principles (GAAP), then its reported net income will be identical to its reported cash flow.

E  ○ The income statement for a given year, say 2008, is designed to give us an idea of how much the firm earned during that year.
