

you started with Rs-2000 or Rs-3000 so after what year how much will you make. When we buy a property, does anyone thinks in 4 days the price will be doubled and I will sell it out. But if your friends say you to come to share market and they will say this too that they made Rs-40,000 in one day, doubled their money in 2 months. If you play the share market as a gamble. For the company that you are becoming an owner and buying share of , about that who is the manager ? What is their business model ? Not finding about that, and just read a chart and heard from someone and bought the shares. Then you will obviously make a loss. The Kids outperformed the Chartered Accountants. They know class 5th maths, Hindi, English, and Science. So how did they do that, understand this thing? As they are kind which companies did they choose ? Cadbury, Disney , Barby , companies like this which interested them and they are customers of those products. So who knows a product better than a customer. As the kids used their products and picked them which means those companies were satisfying their customers. So that company had to do well. That 's why they outperformed them.

If you want to start a business if you need little money then family members, relatives , relatives , and friends will give
