

21. Control over volume is the ultimate control.If we are making 3mistakes in micro lot,then recovery is possible in single big lot.

22. do not over trade.If daily loss reach 2% of capital,then stop trading immediate It is the MOST IMPORTANT RULE. and it takes time to practice.

23.Just learn to digest profit or loss. Take a break,listen music,go to market,meet people or study old charts on internet.

24.Always think in percentage(%).If silver is moving 500pt then it is just 1%.It may go upto 6% someday.

25.Beginners are hyperactive,but mature traders trade only when there is strong reason.

26.Learn to see mkt watch with time discipline,twice or trice a day.(say @1.35pm,5.55,8.55pm)

If you learn to remain calm in red and blue .then you will win definitely.

27. Calculate your daily brokerage and taxes.You can't ignore detail cost in any business.
