Mrs. Dorothy Drake  
Garden Plaza  
5454 Hammer Lane.  
Stockton, CA 95026

Dear Mrs. Drake:

I am writing this letter to let you know why I think it is important to have an elevator in Garden Plaza. Elevators reduce time to transfer the things, provide access for those who are handicapped, and is safer to use. These are the three reasons why I think it is important to have an elevator in Garden Plaza.

First, elevators reduce time to transfer things. It would be nice to let people be able to carry their heavy things from floor from floor. Sometimes there are things that are impossible to transfer to people's apartments , but with an elevator that would be no more an issue to worry about. Elevators are strong and can carry heavy things inside them and make it easier for people who is old to bring heavy things into their apartments without having to struggle.

Second, elevators provide access for those who are handicapped. For those with disabilities or mobility problems, elevators are an affordable solution. They are used in limited access buildings similar to Garden Plaza, have automatic controls for those who need it , and help the people know when they have arrived to the selected floor. These features make it easy for handicap people to transfer from floor to floor which it is a perfect tool to have for our complex apartments.

Third, elevators are safe to use. They have sensor on the automatic closing doors to keep people from closing on limbs , have an emergency button in case something wrong happened, platforms for any kind of wheelchairs, and door reopening devices that keeps them from reopening the door without physical contact. Elevators are specially designed to accommodate people in the safest way possible

Having a reliable tool to transfer , providing access to those who need it, and being safer than ever are the three reasons why I think it is important to have an elevator at Garden Plaza. Thank you for reading my letter. If you have any questions please contact me at 209-955-7545.

Sincerely,

M F
