RADIAL DIMENSIONS

- Radial dimensions measure the radii, diameters of arcs and circles with optional centrelines or a centre mark.
- If the current style has the FiT option, then the dimension is applied with a leader line.

- To create a diameter dimension:

- From the Dimension menu, choose Diameter;
- Select the arc or circle to dimension;
- Enter "t" to edit the dimension text content (optional);
- Enter "a" to edit the dimension text angle (optional); and
- Specify the dimension line location.

Different types of diameter dimensions
