

Taken from Moore et al, Clinically Oriented Anatomy, Seventh Edition

Muscle	Origin	Insertion	Innervation	Action
Cricothyroid	Anterolateral cricoid cartilage	Inferior horn thyroid cartilage	External laryngeal (CNX)	Stretch and tense vocal ligament
Thyro-arytenoid	Thyroid laminae-cricothyroid ligament	Anterolateral arytenoid	Inferior laryngeal (recurrent) (CNX)	Relaxes vocal ligament
Posterior crico-arytenoid	Posterior cricoid	Vocal process of arytenoid		Abducts vocal folds
Lateral crico-arytenoid	Cricoid arch			Adducts vocal folds
Transverse and oblique arytenoids	Arytenoid	Contralateral arytenoid		Adducts arytenoids (adduct fold, closing rima)
Vocalis	Vocal process of arytenoid	Ipsilateral vocal ligament		Relaxes posterior vocal ligament, increases tension of anterior part
