

24th February 2015.

- Antibacterial products are called = Antiseptics or Antibiotics

Plants produce chemicals to defend themselves from ~~Pathogens~~. Pathogens. (bacteria.)

We use plants oil and purephy and use in ~~medicin~~ Medicen.

Antiseptics.

Antiseptics are chemicals Substances that kill bacteria or stop them growing also used outside the body. They are used to prevent infection rather than treat it.

Clean wounds and used ~~in~~ Hospitals.
