

Hello friends, my name is Adam C Miller and I am from USA. I am a reputed member on many internet marketing forums & websites. Today, thousands of people on the internet know me for publishing the most realistic internet marketing e-books & reports. Every week, a lot of new people on the internet become my students, learn internet marketing from me and start making money successfully. If you face any difficulty in implementing this method, or if you've any doubt regarding this method then contact me at: admin@highspeedbusiness.net

I never hurry while publishing an e-book. I do research, find new methods & apply them and if I am successful, I tell others about those methods in my e-books. I write an e-book once in 6 months, but it's always the best one. For your information, I will keep publishing newer versions of 'Facebook Wealth Formula' and you can get them into your inbox automatically, if you [subscribe to my newsletter](#). If you have any doubts regarding this method or you face any difficulty, please email me at admin@highspeedbusiness.net

The amount i.e. \$97.00 which you've invested in 'Facebook Wealth Formula' is going to be your best investment in internet marketing. I am sure that you'll learn awesome stuff out of this e-book. If you are reading this e-book online then I suggest you to download the e-book on your computer and then start reading it. Reading online won't give you better understanding and hyperlinks in the e-book won't work too. So, it's better to download before you start reading.

If you want to see how many people are making money using Facebook Wealth Formula, then please [visit this page](#). If you want to ask a question regarding this method, [please visit here](#). It will give you immense information & support for using this method.

Thanks
Adam C Miller

Here is the screenshot of huge number of friend requests, I got on the same day, I sent the invitations. As soon as you get friend requests, you can add them as your friends by clicking 'Confirm' button. I've blurred the names of Facebook users to protect their privacy, as per Facebook "Terms of use".

Like I already mentioned that the maximum number of friends which you can add is 5000 only but **you don't need to add 5000 friends and you can start making money as soon as you've 1000 friends**. So after I reached this number of friends, people couldn't send me friend requests anymore. If someone would send me a friend request he'll see the following error message:

Once you reach at this level, your **80% work** is complete! I added 5000 friends in just 7 days, but you need only 1000 friends to make money so it can be completed only in 2 days ;)

Here is a **quick** summary of what we did to add 5000 friends in 7 days only:

1. Visit www.facebook.com and create a new Facebook account.
2. Get a good email lists generator and generate an email list, it would be saved in a text file automatically if you're using [Acute Email IDs Production Engine](#). If you're using another email lists generator then make sure it has the option to generate unlimited email lists and save them in text file.
3. [Click here to download](#) a readymade file format to upload on Facebook, the name of the file is 'contacts.csv'. Facebook won't accept any format other than this one.
4. Open 'contacts.csv' in MS_Excel. If you don't have MS_Excel then you can [download open office](#) and install it on your computer. Thereafter, right click on 'contacts.csv' file icon and choose open with > *openoffice.org calc*
5. Copy email addresses from text file saved by email list generator and paste them into 'contacts.csv' under the heading 'E-mail Addresses'. Leave other columns blank and save it.
6. Goto <http://www.facebook.com/invite.php> page and click 'Import your email addresses' option and then choose 'Other Tools'.
7. Browse and upload 'contacts.csv' file there. After file is uploaded it will show all the contacts.
8. Click 'Select All' and then 'Add to Invite' button and then click 'Invite your friends'.

Now, you've your hoplink ready and we need people who click on your link and buy the product. Remember, the more clicks you get, the more sales will be there and more commissions you'll earn. Never post any HopLink on your Facebook wall otherwise you'll be blocked by Facebook and your account will be deleted. You can post Clickbank HopLinks only on a Facebook page created by you.

Now, let's start earning money with your first post

You already have a Facebook page, now it's the time to post status update and tell your friends about it. Status update is anything that you share with your fans on your page. I promote "Weight Loss" products. Every day, I post a free tip on losing weight + affiliate link (hoplink) as a status update. I find new tips every day from the internet and post them on my page with my Clickbank affiliate link. Here's an example of an ideal status update:

After posting a status update, click "Build Audience" button on your page and then click on "Invite Friends" option.

The figures I showed you are really easy to achieve and we've taken everything at its minimum. For example, getting 1000 FB friends is really easy with the help of a good email list generator like Acute Email IDs Production Engine. Once you've 1000 friends, having 200 "Likes" is too easy and is just a childish game. Having 200 Likes means you can start making money because if only 1% people read and purchase the items from your affiliate links then you'll start getting 2 sales a day.

Let me show you my Clickbank earnings!

I get this money transferred to my bank account regularly
