- Be aware of current treatments and their effectiveness.
    - Scoring Disease Severity.
    - Evidence Based Treatments.

SUMMARY: Management of Mucosal Lesions

- Importance of diagnosis before treatment.
- Differential diagnosis of most common:
    - Ulcerative conditions.
    - Non-ulcerative conditions.
- Association of oral lesions with systemic disease and other mucosal sites.
- Difference between treatment of current condition and prevention of new disease.
- Lack of evidence based treatments in most disease.

SUMMARY: Recurrent Ulcers

- Many types of mouth ulcers.
- Recurrence is a major distinguishing clinical feature.
- Aphthous stomatitis is a specific diagnosis not just any 'recurrent oral ulcers'.
- Persistent ulceration is not Aphthous.
- **Steroids for RAS.**
- **Tetracycline for Herpetiform.**
- Scoring ulcer severity can be useful for assessing treatment response.
