

Checking regulations

- E.g. when working with human or animal subjects, human stem cells, GMO's, addictive drugs etc.
- **Risk assessment**
- Identify hazards
- Who/what can be harmed?
- How likely is it that harm will be caused?
- Severity of possible harm?
- How to minimise risk? (control measures) – e.g. PPE = Personal Protective Equipment
- **ALARA** = As low as reasonably achievable – minimising risk while still enabling work
