

7. Molasses contain _____
- (a) 50 – 50% of sucrose, glucose and fructose
 - (b) 60 % of sucrose & fructose
 - (c) 70% of fructose
 - (d) 60% of sucrose
8. 'Wash' is the _____
- (a) enzyme used in fermentation
 - (b) filtrate of the fermented liquid containing about 10% ethanol
 - (c) a dilute solution of cane sugar
 - (d) lime alcohol
9. Fractional distillation of fermented liquid gives _____
- (a) rectified spirit
 - (b) methylated spirit
 - (c) lime alcohol
 - (d) absolute alcohol
10. Rectified spirit is mixed with lime and then distilled. The alcohol obtained is _____
- (a) 95% pure
 - (b) 98% pure
 - (c) 100% pure
 - (d) 85% pure
11. Absolute alcohol is _____
- (a) 100% pure
 - (b) 95.5% pure
 - (c) 98% pure
 - (d) 95.8% pure
12. Denatured alcohol contains _____
- (a) Rectified spirit, methanol, pyridine
 - (b) Rectified spirit, water
 - (c) Methyl alcohol, water, pyridine
 - (d) Rectified spirit, lime, water.
13. Ethanol burns in air with a _____ flame.
- (a) blue
 - (b) red
 - (c) green
 - (d) violet
