

Topics that you might discuss with Supervisors

These are the among items that you may discuss with your supervisors regarding research gaps and tools to use in your report.

1. List of analysis/methods/model/behavior/properties etc that are mostly mentioned in all journals
2. List of analysis/methods/model/behavior/properties etc that are less mentioned in all journals
3. Equipment that you choose is unavailable.
4. Equipment that you choose are under maintenance
5. Equipment that you choose is too expensive.
6. Materials that you choose are too expensive
7. Materials that you choose have been used before as it is mentioned in this guideline book.
8. The type of analysis/methods/model etc that you choose cannot be done as there are no expert available at your institution
9. The items that you want to do research is not in the list, therefore it is a gap potential. You may want to propose it to your supervisor.

Next Steps

After you had selected your research methods, find journals related to your subject matter. Read it thoroughly. This book had already saved you a lot of time in selecting suitable methods for your research purpose.
