

FELL IN LOVE WITH MY BEST FRIEND

FEMINISM- this films empower the women.

PSYCHOANALYSIS- the woman's best friend has a feeling for her best friend that even shouldn't be felt because they are the best friends if she falls for her best friend their relationship will be awkward they will have shame on each other so what the man did was wrong all of a sudden he liked his best friend even though he shouldn't.

GOLD DIGGER/ BOYFRIEND TEST HIS GIRLFRIEND

Biography- In the film gold digger what I notice that I can relate because it refers to the boy he tests his girlfriend and he find out the girl she is a good digger the love for her boyfriend is fake is not a true love if you love someone, don't love based on the state of his life, love what he really is. And in end of film they have quotes "your boyfriend should not be your source of income. It's a relationship not a job opportunity."
