E°cell < 0, K > 1, and ΔG° > 0 E°cell < 0, K > 1, and ΔG° > 0 E°cell < 0, K > 1, and ΔG° < 0 E°cell < 0, K < 1, and ΔG° < 0 An electrode in an electrochemical cell at which oxidation occurs is referred to as which of the following terms? Galvanic cell Cathode Anode Battery The core congress description of the problem of the	Reaction is sponateous under standard conditions,	
An electrode in an electrochemical cell at which oxidation occurs is referred to as which of the following terms? Galvanic cell Cathode Anode Battery The roce as a certrical energy to cap G on spontaneous process to occur is referred to as which of the following terms? Corrosion Electrode potential	\bigcirc E° _{cell} > 0, K < 1, and \triangle G° > 0	
An electrode in an electrochemical cell at which oxidation occurs is referred to as which of the following terms? Galvanic cell Cathode Anode Battery The roce cost is electrical energy to can be supported by the following terms? Corrosion Electrode potential	\bigcirc E° _{cell} < 0, K > 1, and \triangle G° > 0	
An electrode in an electrochemical cell at which oxidation occurs is referred to as which of the following terms? Galvanic cell Cathode Anode Battery The roce of any electrical energy to cap (2) on spontaneous process to occur is referred to as which of the only high terms? Corrosion Electrode potential	\checkmark E° _{cell} > 0, K > 1, and Δ G° < 0	
Galvanic cell Cathode Anode Battery Corrosion Electrode potential	\bigcirc E° _{cell} < 0, K < 1, and \triangle G° < 0	
Galvanic cell Cathode Anode Battery Corrosion Electrode potential		
Cathode Anode Battery The process as a dectrical energy to canada on spontaneous process to occur is referred to as which of the only ling terms? Corrosion Electrode potential		ation occurs is referred to as which of the following
Electrode potential		
Electrode potential	Cathode	
Electrode potential	✓	Je CO.UK
Electrode potential	Battery	otesalo.
Electrode potential	from N	2 of 3
Electrode potential	The process say electrical energing cartial onspot the only ving terms?	ontaneous process to occur is referred to as which of
Electrode potential	Corrosion	
	✓	
Galvanization	Electrode potential	
	Galvanization
