

writing/ printing begins, and its importance in relying on information and spreading learning around the world. The video shows us how globalization saved the world just like sharing and adapting knowledge on how to grow crops.

There is also a negative side of globalization in which diseases such as the plagues spread around the world.

III. What are the values you learn from this video?

The values that I have learned from the video is unity, including sharing, helping through better or worse . Unity makes people around the world connected, just like our country, we cannot support all of the needs of the people, we need others' help . Through unity we can get mutual benefits from each other.
