

46 down to 41. 35 so a quick drop it could still continue to drop here. We go. I'll buy in increments of 150 just to give myself a little bit of cushion all right there. It goes looks like it's trying to find a support level here still dropping so I think it could be reversing soon. I will check it out showing signs of a potential support here. [UNK] "it looks like it's. almost building this bull flag pattern if it continues to rally and consolidate around 42. 50. I think that there could be a breakout and or we 're going to see a strong drop" Paul [UNK] "I'm not gon na hesitate to lock in profits here team. if it pulls on back.

of where it normally trades at is AmC overbought or oversold right. We can see that it tends to have a support level around thirty-five dollars a resistance level right around forty-four dollars right so I am more at a resistance there than I am at a support based off of previous patterns. It does n't mean that it has to continue to get rejected. It could break out It could shoot right 100 but just based off patterns. I 'm at a potential resistance level. This should throw a red flag in my head and be like hey You know this is where you should choose to be more selective. I 'm very open when I trade AmC. I know it. I I mean if anything people get offended. Uh you guys can see by the Youtube comments right when I upload a video about how much. money I made trading Amc. It 's not even about the money that I focus on. I tend to be a little bit more relaxed with those specific trades because I do N't view them to be hyped up stocks. uh we'll see if we drop right back down to 41. It does n't mean that it has to recover. I'm trying to say is understand when enough is enough we 're at a resistance level understand that it does N't have to continue to rally so that 's the whole purpose of this live stream. I talked about position size and oversold levels not just on the day but overall big picture. So let 's take that into consideration. I like deals so I would rather buy it but you know I liked it. I liked the challenge I like the struggle..

Live training sessions are exclusive to solely the learn plan profit team. They 're the team that get to watch me trade live every day They get access to the full A2z video Lesson Library. one of the things that you should know and I 'm sure you do is you can search up anything on Google and on Youtube. I. everything it is that I know about the stock market and what has led to my success is structured in an A2z video lesson library. we update this as the market is always changing on top of that you're going to have questions along the way.
