

Formation of Sales and Lease Contracts

Course: Advanced Commercial Law Course

Texas Tech University

The Advanced Commercial Law course is a comprehensive exploration into the intricate legal framework governing commercial transactions and business operations. Delving beyond foundational concepts, this course traverses complex legal intricacies, examining various facets pivotal in commercial law practice.

Key Components Explored:

Contractual Dynamics:

Analyzing advanced principles of contract law, including formation, interpretation, and enforcement of complex contracts.

Exploring nuances in international contracts, electronic contracts, and remedies for breach.

Corporate Governance and Regulatory Compliance:

Unveiling corporate structures, governance mechanisms, and fiduciary duties within corporations.

Investigating regulatory compliance obligations, corporate ethics, and responsibilities towards stakeholders.

Mergers, Acquisitions, and Restructuring:

Understanding legal intricacies involved in mergers, acquisitions, divestitures, and corporate restructuring.
