

## 15. Launch:

- Deploy your website using a hosting service of your choice.
- Resources: GitHub Pages, [Netlify](#)

References for further reading on website design can include:

### 1. Books:

- "Don't Make Me Think" by Steve Krug: A classic book on web usability.
- "The Design of Everyday Things" by Don Norman: While not specifically about web design, it provides valuable insights into user-centered design principles.

### 2. Online Courses:

Coursera and Udacity offer courses on web design, such as "Web Design for Everybody" and "Responsive Web Design Fundamentals."

- Codecademy has interactive courses on HTML, CSS, and JavaScript, which are fundamental for web design.

### 3. Websites and Blogs:

- A List Apart (<https://alistapart.com/>): A website that explores the design, development, and meaning of web content.
- Smashing Magazine (<https://www.smashingmagazine.com/>): A resource for web developers and designers, covering a wide range of topics.
