

Cells ----- Tissue ----- Organ ----- Organ System ----- Organism

Muscle cells ----- Muscle tissue ----- Stomach ----- Digestive System ----- Organism

Now, muscle tissue is not the only tissue that makes up the organ stomach. There are other tissues also, like connective tissues. Also the stomach is not the only organ in the digestive system, other organs like the small intestine and liver are also present. With the digestive system there are other systems, like the circulatory system, that make up an organism.
