Linear equations 11

Full marks can be gained if the solution alone is given on the answer line, or otherwise unambiguously indicated in working (without contradiction elsewhere). Where the correct solution only is shown substituted, but not identified as the solution, the accuracy mark is lost but any method marks can be awarded.

12

Unless allowed by the mark scheme, the marks allocated a off surt of the question CANNOT be awarded in another.

Range of answers 13

Unless otherwise stated, when an all given as range (e.g 3.5 – 4.2) then this is inclusive of the end points (e.g 3.5, 4.2) and includes all numbers worth the range (e.g.4, 41) Page 5 review
