

The Brain

Remembering the lobes

Cerebral cortex - 'complex'

outer layer of cerebrum

- conscious action
- Active thinking

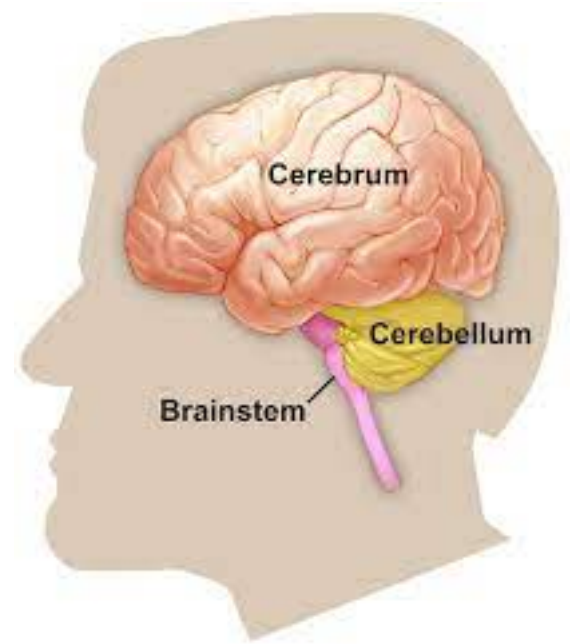

Cerebellum - 'fall on your bum'

- Coordinates motion / balance

Medulla - 'Dull'

(Brainstem)

- Automatic functions
- Homeostasis

Lobe locations

Frontal lobe - Front

- higher level executive functions

Temporal lobe - Temples

- Auditory info + memory

Parietal lobe - Pirate hat

- touch + spatial awareness

Occipital lobe - Eyes in back of the head

- Visual perception
