

Preface

What is the Vocabulary List? The following quotation comes from Jim Burke's home page.

"A thorough survey of various textbooks, assignments, content area standards, and examinations yields the following list of words. You cannot expect to succeed on assignments if you do not understand the directions. The words fall into several categories, which are not identified on this sheet: nouns (e.g., What you read or create); verbs (e.g., What the assignment asks you to do); adjectives (e.g., specific details about what you must do); and adverbs, which provide very important information about how to do the assignment."

The **Academic Vocabulary List** can be obtained from:

[NEW: Academic Vocabulary 2.0 \(Expanded\)](#)

I have taken Jim's Academic Vocabulary List (pages 3-4) and categorized the words into parts of speech (pages 5-34). In some cases, I've expanded the root to show word usage in different forms.

The purpose of compiling this list is to make it so the teacher will be able to take all the words in the **Academic Vocabulary List** and put them in a **format** that will make it easier to integrate them into a usable vocabulary program, or just to use in daily lessons.

This **format** puts all the **words' parts of speech** at your fingertips. I hope this helps you as you help students! Good luck!
