

Exocytosis 5 pts	Active	against	a process by which the contents of a cell vacuole are released to the exterior through fusion of the vacuole membrane with the cell membrane.
Endocytosis 5 pts	Active	against	the taking in of matter by a living cell by invagination of its membrane to form a vacuole.

Complete the table chart and the flow chart (page 2) below and describe any additional characteristics in your own words (to help you on a test) of each of these types of transport below:
