

- + html
- + CSS(cascaded style sheet)
- + Micromedia flash

e.g

<https://www.facebook.com/newaccount/mine>

- + **https**-this is known as Protocol(this helps the internet to read)
- + www.facebook.com -domain name
- + New account/mine-path and file name
 - All default pages are called
 - Index.html
 - Home.html

Principles of web design

Graphical design

- Keep the size of graphics small especially on the main or home page.
- Use standard colours.
- Keep background simple and not busy.
- Keep the viewable size of page in mind.

Navigation

- Use a simple consistent interface.
- Organize your pages for easy navigation.
- Careful plan your site before you build.
