

Niche Power Supplies and Features

Thursday, April 14, 2016 9:02 AM

- ATX power supplies usually only run up to 1200 Watts

Modular Power Supply	A type of power supply that allows for plugging / unplugging cables.
----------------------	--

- An issue with power supplies is that they either come with not enough cables, or too many.

Small Form Factors work exactly the same as larger power supplies
