

Economics- a social science that deals with the study of man's activities and efforts to use the limited resources for the satisfaction of the unlimited needs of man

- mechanics of utility and self-interest

- focus on the idea of exploring results of people acting on the basis of self-interest, but has been proven that there is more to man's self-interest, that man's choice and decisions are not always influenced by self-interest and utility

- needs and wants

- “oikos” and “nomos”

- house and management

- Barter System
